FOREWORD

This handbook of Educational Statistics provides a summary of School Education Statistics of Telangana state with 10 districts. It is an annual publication of the Department of School Education for the year 2015-16 and is second in the series.

The hand book incorporates the Census data released in 2011, such as Gender wise population, Rural and Urban population, National and State level Literacy Rates, Growth Rate, Sex Ratio etc.. This handbook provides the School Education statistical abstract figures, district wise as well as state wise, i.e. data pertaining to type wise and category wise number of schools, gender wise enrolment and number of teachers working in the schools. It also contains the details of teacher–pupil ratio, drop out rates, transition rates etc.,. Student dropout rates and SSC examination results of the last 10 years are published in this statistical hand book.

I hope this handbook will provide the statistics of the School Education Department at a glance and will be useful to educational planners, administrators, academicians and all the persons interested in the field of Education. Any suggestions for further improvement are appreciated.

(Sri G.Kishan)
